____ I understand that Butte Humane Society uses qualified staffing and approved materials for all procedures performed. I understand that the risk of injury or death, although extremely low, is always present just as it is for humans who undergo surgery.

____ I either certify that my cat has been vaccinated within one year prior to this date or understand that he/she is not protected from contagious diseases. I understand that it takes up to two weeks for vaccinations to protect my cat. Butte Humane Society has the right to refuse service to any animal to whom surgery is deemed a health risk.

____ I understand that if my cat is overweight/obese, this will cause surgical complications and there will be an additional surcharge of **\$10-\$50.**

____ I understand dissolvable sutures and glue will be used on my pet's incision, and if I decline to purchase or provide an e-collar (cone) for my pet to keep him/her from being able to lick the incision, my pet's incision will be at risk of becoming infected.

____ I understand that there will be an additional fee of **\$15-\$50** if there are changes to my cat's uterus from such causes as being in heat, pregnant, or over 2 years old. I understand that if my pet is pregnant, the pregnancy will be terminated at the time of surgery.

____ I understand that if I do not pick up my pet by 5:45pm this evening I will be charged an overnight boarding fee of \$25.

____ I understand that if my pet stays overnight there is no staff on the premises 24 hours a day.

____ I understand that if my pet has fleas, it will be given Capstar, a fast-acting short-term flea treatment, at a cost of \$6 to ensure a sterile surgery.

If you are experiencing an emergency outside our normal business hours please contact the nearest clinic that provides emergency services. BHS specifically disclaims any responsibility or liability for any costs associated with, arising from, or stemming from any treatment, non-treatment, or inability to provide services outside our normal business hours.

____ I understand that all surgical patients under general anesthesia receive a toe nail trim unless otherwise requested by the owner.
